Choose *Downloads* in your computer and double click on the file to open in Calibre which is a free program that is highly recommended. If you don't have Calibre here is the link to download the program: <u>https://calibre-</u>

ebook.com/download

You can now read right from Calibre or get the Kindle App for your computer and import a PDF by converting to PDF. Here is the link to get the Kindle App for your computer:

https://www.amazon.com/gp/help/customer/display.html?nodeId=GZSM7D8A85 WKPYYD

Choose the *down arrow by Output Format* to *PDF*, then select *OK*.

In the Kindle App, choose *File*, then *Import a Local PDF* 

## Now select the Calibre Library Folder

Double Click on the Author to find the book

Then Double Click on the **Book** to import.

🔀 Import PDF		×
